

PAPER-BASED FOOD CONTAINERS

TAKEAWAY, MULTI-COMPARTMENT
& CATERING COLLECTION

BUILT AROUND THE WAY FOOD IS SERVED

Food packaging is more than a container. It affects portion presentation, handling, delivery and the customer’s first impression of the meal. Ekoroll’s food container range brings together everyday takeaway formats, purpose-shaped boxes and organized multi-compartment systems for a wide range of foodservice applications.

From a compact snack pack to a structured catering box, every project begins with the same questions: What food will be packed? How will it be served? Which material and barrier structure are appropriate? What level of branding is required?

OUR APPROACH

Select the right format. Confirm the right specification. Build a packaging solution that is practical to order, use and present.

ABOUT EKOROLL

Practical packaging. Coordinated for B2B supply.

Ekoroll Packaging Solutions is an Izmir-based B2B packaging company serving foodservice operators, distributors, restaurant groups, retailers and private-label partners. We help customers identify suitable formats, define application requirements and coordinate standard or customized packaging projects for domestic and international markets.

Our food container collection includes open trays, fold-top boxes, sushi and doner formats, burger and chicken boxes, dessert packaging, pizza and bakery formats, and structured multi-compartment meal systems. Each project is evaluated according to food type, serving conditions, board structure, barrier requirement, order quantity and delivery destination.

WHAT WE BRING TO THE PROJECT

- A broad foodservice-focused product range
- Support in matching format, material and application
- Custom printing and private-label project coordination
- Sample, artwork and specification approval support
- Export-oriented commercial and delivery coordination

MATERIALS & BARRIER SYSTEMS SELECTED AROUND THE APPLICATION

Board, barrier and finish should be matched to the food and service conditions.

The performance of a food container depends on the complete structure—not only the paperboard. Food type, oil and moisture content, serving temperature, contact time, printing requirements and disposal route should all be considered before the final specification is approved.

BRISTOL / SBS

A clean white paperboard with a smooth and consistent surface, suitable for high-quality printing, detailed graphics and applications where a bright, premium presentation is required.

CKB

A strong paperboard option combining a clean, printable outer surface with a natural reverse-side character. It offers a balance of visual quality, structural performance and a more natural material appearance.

KRAFT

A paperboard with a familiar natural appearance, well suited to casual dining, takeaway, bakery, street-food and contemporary foodservice branding. Available performance depends on the selected board grade and barrier structure.

VIRGIN KRAFT

A natural paperboard option for applications requiring a more defined surface, consistent material quality and premium visual character. It can be evaluated for both plain and custom-printed food-packaging projects.

CORRUGATED BOARD

Selected EF, E, B or C flute structures are available for larger, wider or more structural food-packaging formats. Corrugated constructions can provide additional rigidity and support for pizza, catering, bakery and high-capacity meal boxes.

BARRIER & LINING CONFIGURATIONS

The paperboard provides the structure of the container, while the barrier system helps manage contact with grease, oil, moisture and different food conditions.

The same container format may be evaluated with different board and barrier combinations, allowing the final specification to balance food performance, print quality, visual appearance, cost and environmental objectives.

WATER-BASED BARRIER COATING

Water-based barrier coatings are available for selected food-container applications as an alternative to conventional plastic-film linings.

BARRIER OPTIONS

Selected water-based-coated structures may be available without a conventional PE, PP or PET film layer. Where different moisture, grease, sealing or temperature performance is required, PP- or PET-lined options may also be specified.

SPECIFIED FOR THE APPLICATION

The final material structure is selected according to:

- Food type, oil and moisture content
- Serving temperature and contact time
- Forming, filling and sealing requirements
- Chilled or frozen use
- Printing needs and target-market regulations
- Intended end-of-life objectives

Final performance, food-contact suitability and environmental claims—including plastic-free, PFAS-free, recyclability, repulpability and compostability—must be confirmed for the exact material, finished product and intended application through the approved specification and supporting documentation.

MULTI-COMPARTMENT MEAL SYSTEMS

One coordinated pack for a more organized service.

Designed for menus that need a main dish, sides, sauces or beverages presented together within one coordinated format. Selected systems combine an outer paperboard box with purpose-designed inserts for prepared meals, catering, institutional foodservice, events, premium takeaway and transport catering.

- Clear separation of meal components
- Multiple sizes and insert configurations
- Organized presentation for individual or shared service
- Custom-printable exterior options

COMPACT MULTI-ZONE LUNCH BOXES

Three footprints for prepared meals, combo menus and premium takeaway.

These formats combine an outer box with an integrated multi-zone insert, allowing different menu components to be presented within one organized pack.

SKU	Product	Dimension / mm
EK-MC-801	147 oz / 4,334 mL Multi-Zone Lunch Box	330 x 220 x 60
EK-MC-802	115 oz / 3,393 mL Multi-Zone Lunch Box	310 x 200 x 55
EK-MC-803	162 oz / 4,788 mL Multi-Zone Lunch Box	350 x 250 x 55
EK-MC-811	Service Box with Meal & Sides Insert	432 x 346 x 100
EK-MC-812	Service Box with Meal & Beverage Insert	432 x 346 x 100

FOLD-TOP & NOODLE BOXES

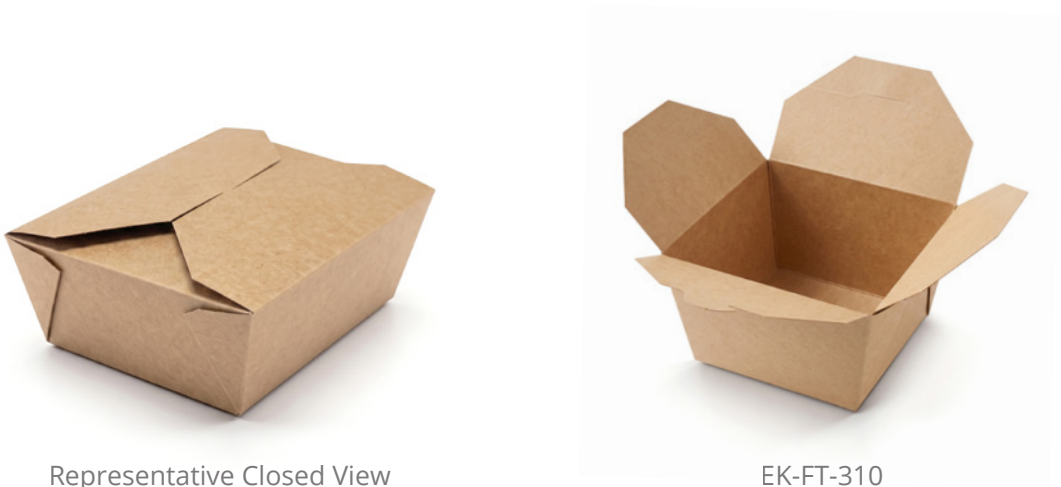

One-piece boxes with an integrated fold-top closure, available in five sizes.

A one-piece format for noodles, rice, pasta and prepared meals, available in sizes ranging from individual portions to larger takeaway and sharing formats.

SKU	Product	Dimensions (L x W x H) / mm
EK-FT-301	30 oz / 877 mL	91 x 91 x 70
EK-FT-302	40 oz / 1,190 mL	140 x 101 x 65
EK-FT-303	50 oz / 1,489 mL	165 x 135 x 56
EK-FT-304	70 oz / 2,071 mL	183 x 132 x 67
EK-FT-305	90 oz / 2,651 mL	180 x 130 x 80

RECOMMENDED FOR

Noodles, rice, pasta, Asian cuisine, prepared meals, takeaway and delivery.

RECTANGULAR & SQUARE FOLD-TOP BOXES

Compact, rectangular and square formats for menu-specific portions.

Choose compact formats for sides and smaller meals, wide rectangular formats for broader food presentation, or deep square formats for larger portions.

SKU	Product	Dimensions (L x W x H) / mm
EK-FT-306	Compact Fold-Top Box	107 x 87 x 60
EK-FT-307	Tall Compact Fold-Top Box	112 x 90 x 65
EK-FT-308	Wide Rectangular Fold-Top Box	197 x 139 x 64
EK-FT-309	Slim Rectangular Fold-Top Box	167 x 89 x 58
EK-FT-310	60 oz / 1,762 mL Square Fold-Top Box	120 x 120 x 100

RECOMMENDED FOR

Prepared meals, noodles, rice, snacks, side dishes, elongated food items and takeaway menus.

Sushi Box

Doner Box

SUSHI & DONER BOXES

Low-profile sushi formats and compact upright boxes for takeaway and counter service.

Shallow rectangular formats present sushi rolls and assortments neatly, while compact upright boxes are designed for döner, snacks and street-food portions.

SKU	Product	Dimensions (L x W x H) / mm
EK-SU-401	28 oz / 841 mL Sushi Box	150 x 95 x 50
EK-SU-402	55 oz / 1,613 mL Sushi Box	215 x 125 x 50
EK-SU-403	88 oz / 2,592 mL Sushi Box	260 x 180 x 50
EK-DN-411	26 oz / 772 mL Doner Box	70 x 70 x 100
EK-DN-412	36 oz / 1,062 mL Doner Box	90 x 90 x 90
EK-DN-413	16 oz / 466 mL Doner Box	60 x 60 x 80

RECOMMENDED FOR

Sushi assortments, individual or shared platters, doner, street food, compact snacks and counter service.

HIGH-CAPACITY & SPECIALTY BOXES

Deep square formats and purpose-shaped meal packaging.

The deep square range accommodates generous portions and high-profile food presentation, while the kebab and tall chicken boxes provide purpose-designed formats for specific menu applications.

SKU	Product	Dimensions (L x W x H) / mm
EK-SQ-421	85 oz / 2,514 mL Deep Square Box	130 x 130 x 101
EK-SQ-422	130 oz / 3,856 mL Deep Square Box	150 x 150 x 124
EK-SQ-423	170 oz / 5,037 mL Deep Square Box	150 x 150 x 162
EK-KB-431	72 oz / 2,133 mL Kebab Box	215 x 114 x 70
EK-CH-441	Tall Chicken Box	155 x 155 x 160

RECOMMENDED FOR

Large meals, grilled foods, kebab, chicken, family-style takeaway and high-volume foodservice.

Deep Box View

Kebab Box View

TACO & SNACK FORMATS

Purpose-shaped packaging for tacos, fries and hand-held snacks.

Compact taco boxes support contained hand-held meal presentation, while fries and potato formats provide convenient open-top access, including an option with an integrated sauce compartment.

SKU	Product	Dimensions (L x W x H) / mm
EK-TC-501	35 oz / 1,034 mL Taco Box - Type A	110 × 40 × 150
EK-TC-502	35 oz / 1,034 mL Taco Box - Type B	110 × 40 × 150
EK-TC-503	15 oz / 454 mL Compact Taco Box	70 × 40 × 110
EK-SN-511	Small Fries Box	75 × 31 × 102
EK-SN-512	Large Fries Box	85 × 30 × 105
EK-SN-513	Fries & Potato Holder with Leak-Proof Sauce Compartment	304 x 166

RECOMMENDED FOR

Tacos, french fries, potato wedges, fried snacks, festivals, food trucks and fast-casual service.

Taco Boxes

Fries Boxes

Fries Holder with Sauce Compartment

Low-Profile Burger Box

High-Profile Burger Box

BURGER BOXES

Multiple footprints and profile heights for standard, large and premium burger builds.

Designed for burgers, chicken sandwiches and other stacked menu items, the range combines multiple footprints with low, standard and high-profile formats for takeaway and delivery.

SKU	Product	Dimensions (L x W x H) / mm
EK-BG-601	50 oz / 1,464 mL Large Burger Box	145 x 145 x 70
EK-BG-602	35 oz / 1,025 mL Burger Box	112 x 118 x 80
EK-BG-603	37 oz / 1,090 mL Square Burger Box	117 x 117 x 80
EK-BG-604	Standard Burger Box	115 x 115 x 80
EK-BG-605	Extra-Large Burger Box	130 x 130 x 90
EK-BG-606	Low-Profile Burger Box	115 x 115 x 70
EK-BG-607	High-Profile Burger Box	115 x 115 x 90

RECOMMENDED FOR

Burgers, chicken sandwiches, premium sandwiches, fast-casual menus, takeaway and delivery.

Meal & Lunch Boxes

Chicken Boxes

MEAL & CHICKEN BOXES

Elongated and high-capacity formats for larger menu items and combination meals.

Elongated and high-capacity formats accommodate long sandwiches, combination meals and larger portions, while two dedicated chicken-box sizes support fried and grilled menu items.

SKU	Product	Dimensions (L x W x H) / mm
EK-ML-611	75 oz / 2,207 mL Long Meal Box	237 x 117 x 80
EK-ML-612	64 oz / 1,890 mL Rectangular Meal Box	190 x 100 x 100
EK-ML-613	Large Lunch Box	205 x 125 x 90
EK-CH-621	25 oz / 730 mL Small Chicken Box	143 x 85 x 60
EK-CH-622	44 oz / 1,302 mL Large Chicken Box	178 x 105 x 70

RECOMMENDED FOR

Long sandwiches, combination meals, lunch portions, fried or grilled chicken and larger takeaway servings.

CAKE & DESSERT BOXES

Purpose-designed formats for cakes, pastries and premium dessert presentation.

Designed for bakery and dessert service, the range includes carry-handle cake boxes and compact presentation boxes with fitted inserts for individual items and mixed assortments.

SKU	Product	Dimensions (L x W x H) / mm
EK-DS-701	111 oz / 3,295 mL Medium Cake Box	230 x 160 x 90
EK-DS-702	173 oz / 5,122 mL Large Cake Box	260 x 220 x 90
EK-DS-703	54 oz / 1,592 mL Compact Dessert Box	160 x 100 x 100
EK-DS-704	75 oz / 2,212 mL Rectangular Dessert Box	190 x 130 x 90

RECOMMENDED FOR

Cakes, cupcakes, pastries, doughnuts, dessert assortments, bakery takeaway and gifting.

Cake Carry Boxes

Dessert Boxes with Inserts

SANDWICH & SLICE PACKAGING

The triangular club-sandwich box follows the product shape for a focused display, while the elongated pizza-slice box supports individual takeaway portions.

SKU	Product	Dimensions (L x W x H) / mm
EK-SW-711	Club Sandwich Box	173 x 122 x 52; base 88
EK-SL-712	20 oz / 580 mL Pizza Slice Box	216 x 62 x 40

Club Sandwich Box

Pizza Slice Box

PIZZA, LAHMACUN & PIDE BOXES

The range includes two pizza-box configurations in three sizes, large and small lahmacun boxes, and a dedicated elongated format for pide and similar menu items.

SKU	Product	Dimensions (L x W x H) / mm
EK-PZ-901	Pizza Box - Type A	Small: 200 x 200 x 45 Medium 295 x 292 x 45 Large: 300 x 300 x 35
EK-LH-911	Large Lahmacun Box	360 x 360 x 42
EK-LH-912	Small Lahmacun Box	255 x 255 x 42

MAKE THE PACK PART OF THE BRAND

Ekoroll supports plain, custom-printed and private-label food-container projects for distributors, restaurant groups, hospitality businesses and foodservice brands.

CUSTOMIZATION OPTIONS

- White, kraft and selected board appearances
- Custom exterior printing and brand artwork
- Application-specific barrier and lining evaluation
- Selected insert and compartment configurations
- Dieline, artwork-proof and sample-approval support
- Private-label and project-based product development

WHAT DETERMINES THE FINAL SPECIFICATION?

- Food type and serving conditions
- Required size, capacity and construction
- Board, barrier and print coverage
- Order quantity and production method
- Packing, pallet and delivery requirements

Project Availability

Customization, printing, tooling and development are subject to minimum order quantity and production feasibility.

LET'S SPECIFY THE RIGHT FORMAT

Share the application details and receive a more accurate product recommendation and quotation.

Please include:

- Product model(s) and required quantity
- Food type, portion and serving temperature
- Plain or custom-printed requirement
- Preferred board appearance and barrier requirement
- Destination city and country
- Requested Incoterm and target delivery date

For custom projects, please also provide the logo or artwork file, desired print colours, target launch date and any existing packaging sample or reference.

Certification documentation is available depending on final product specification and production route.
